

Crediblock Business Intelligence (BI)

Information is power in business and investing. Our BI product can provide full scope awareness for your organization. This is suitable for investors performing detailed due diligence, for companies looking to partner or merge with another, for companies doing feasibility studies about new business lines, for lawyers doing in-depth discovery for cases, for governments checking their contractors. This service includes:

- Business Intelligence & Investigations
- Compliance risk & diligence for organizations, money managers, and investors
- Cybersecurity and I.T. analysis
- Understanding your shareholder demographic (for risk analysis)

Intel	Diligence	Deep Dive

The steps are simple, after a brief consult we will prepare a contract including mutual Non-Disclosure Agreement (NDA). Someone from your team will need to serve as liaison and undergo a series of Q@A sessions which may include filling out some questionnaires. Before starting we need a clear picture of what you want to achieve and accomplish. After our work is complete, we will provide a full detailed report of our findings, as well as sources where we obtained the information where appropriate, and raw data we collect during our research process.
